The agency's 2015 Integrated Resources Plan (IRP) Update aims to continue the tradition of providing adequate and reliable water supplies. The text highlights the lessons learned from the extended drought of 1986-1991, which led to mandatory water rationing and economic impacts on all users. In response, Metropolitan convened a stakeholder process to address water supply reliability, resulting in the adoption of a reliability goal in 1996. The subsequent updates to the IRP in 2004 and 2010 reaffirmed the goal of supply reliability and strengthened it with additional planning and implementation elements. The 2015 IRP Update aims to provide Southern California with a future free from severe water supply shortages and restrictions.</description> Select titles	THE 2015 IRP UPDATE: A VISION FOR RELIABILITY
